

NEWS AT THE

JAN/FEB

Happy NEW YEAR!

Huntington Village Residents!

As we welcome in the new year, we want to express our gratitude for being part of such a vibrant and supportive community. We hope you had a wonderful holiday season and are feeling re-energized for all the exciting things that 2024 has in store for us.

We're excited to continue working with you to make Huntington Village an even better place to call home. Whether it's through resident or local community events, or simply lending a helping hand to a neighbor in need, we know that together we can make a positive impact. So here's to a new year full of possibilities, growth, and community spirit. Let's make it a great one!

Thank you for being a part of our community, and here's to a wonderful year ahead!

Sincerely,

Your Huntington Village Management Team!

Community IMPROVEMENTS

GATE INSTALLMENT UPDATE

February 1st, 2024

We are excited to announce that we are getting gates installed at Huntington Village.

We ask for your patience as we work on improving our community.

MAINTENANCE TIP

DISHWASHER MAINTENANCE

An easy way to prevent a smelly dishwasher is by regularly cleaning the inside of the machine. We recommend cleaning your dishwasher every 30 days to help prevent the buildup of detergent and to ensure your dishwasher's running at its optimal performance.

Five Steps on Maintaining Your Dishwasher

- 1 **Clean your Filter:** If your dishwasher has a filter, remove it and clean off any food or grime. Food can become trapped in the filter and impair cleaning
- 2 **Clean the Spray Arm:** Wipe down the spray arm with a damp towel. We recommend removing the spray arm to clear any blockages with a toothpick every six months. Refer to your owner's manual for detailed instructions on how to remove and clean your spray arm.
- 3 **Clean the Door and Seals:** Dishwashers have seals around the door rim to prevent the machine from leaking while running. Wipe down the rubber seals and the door with a damp cloth to prevent soil and grime from building up. A drop of Dawn® will do the trick.
- 4 **Make it Monthly:** Cleaning your dishwasher once a month helps prevent a build of germs and maintains your machine's efficiency.
- 5 **Keep it Running:** Running your dishwasher at least once a week keeps the motor seals working properly. Remember, even small loads can save water with your dishwasher.
